

JOANNE - J.F. FABRICS

DESIGNER SERIES – JF EXCLUSIVE

FRAGRANCE COLLECTION

Exclusive to Joanne/JF Fabrics for North America

The **FRAGRANCE** Collection is a coordinated package consisting of 7 designs (41 skus total). Introducing a beautiful new traditional package of prints on two base cloths—a 54", 100% cotton duck cloth and a 54", 100% cotton sheeting. Both base cloths are multi-purpose and all designs co-relate throughout the collection.

All designs are vat dyed with most containing 18-20 screen-printing.

ANGEL – A full coverage “mini-print” design combining leafy sprigs and single floral heads randomly placed overall. This small design is printed on the sheeting base cloth in three-color ways designed to co-relate throughout the collection – a very usable print for all applications.

AROMA – A very delicate floral vine design printed in four soft color ways on the sheeting base cloth. This design features small floral heads on a very fine vine design scrolling throughout. The large 24" x 27" repeat indicates the minimal coverage of these elements – a very pretty soft floral for all home décor applications.

Fragrance Collection

CACHET – This beautiful focal point design will be the dramatic feature of the collection. It features large floral topiary trees in earthen pots arranged in a ½ drop configuration. Two color ways printed on sheeting, pick up enough colors to effectively co-relate with the whole collection. This design will be used primarily for drapery and bedding applications.

CALLEN – is a substantial 100% linen fabric that can be used for upholstery, drapery, bedding and decorative accessories.

EMOTION – A multi-colored randomly striped design using many colors and widths in four very decorative color ways. This design is also printed on the duck cloth and co-relates throughout the entire collection.

HAPPY – Six color ways printed on the sheeting feature small off white polka dots on textured backgrounds. This small design will tie in the entire color pallet of the collection and work as the perfect “go with”.

MIRACLE – A dramatic floral vine design of medium to large scale printed on the heavy duck-cloth, which also has a Teflon finish. The design features five bright color ways with vertical leafy vines, various floral heads and randomly placed birds perched on the vines.
